## **RLink Platform Installation and Account Registration Steps**

Unzip - Double-click the package to install - Register (if you have registered an account on the RLink Lite or other devices of TOPDON, you can directly log in) - Fill in the information - Log in to the account – Bind and activate the device

1. Unzip the RLink Platform software package.

Name	Date modified	Туре	Size
RLink_Lite_DisplaySW_V2_12_EN 1	1/06/2024 11:45	Compressed (zipp	289,130 KB

## 2. Double-click the software to install.

Note: Some computers have high security. When opening the driver, a prompt requiring administrator rights will appear. Click **Yes**. This driver will not have any adverse effects on the computer.

Name	Date modified
Rlink Platform_V2.12.003 2	27/03/2024 09:45
RLink_Lite_DisplaySW_V2_12_EN	11/06/2024 11:45

3. Click **Register** to register. (If you have already registered on the RLink Lite, just log in to the account)

- 4. Follow the instructions to sign up your TOPDON account.
- 1) Enter an email address that can log in and receive emails.
- 2) Click **Get Verification Code**. Then enter the verification code received in your email (email verification information, as shown in Figure 7)
- 3) Enter a password you can remember.
- 4) Enter the password you set in step 3) again.
- 5) Read the User Agreement and Privacy Policy carefully and check the Accept box.
- 6) Click **SIGN UP**. Registered successfully. It will jump to the login page.
